

Distinctive

Rambler Type **HOMES**

DESIGN NO. 6132

**FIVE, SIX AND SEVEN-ROOM HOMES
THREE BEDROOMS • ONE STORY**

Western Red Cedar shows strong color contrast between heartwood and sapwood. It is a dramatic, exciting wood which adds life and sparkle to a room. Grain of the wood presents strong vertical accents, giving walls the appearance of new height.

Soft, muted tones of this paneling make it a pleasing neutral background to show off furnishings and fabrics. Subtle differences in color and grain add a new dimension in decorating. That is why rooms finished with beautiful wood paneling are more interesting than other types of interior finishes.

Cheerful knotty pine paneling softens the gleam of kitchen appliances . . . gives charm and warmth to the most important room in the house. Available panelings match or complement cabinets. Ask your Weyerhaeuser 4-Square Lumber Dealer for additional kitchen remodeling ideas.

WEYERHAEUSER 4-SQUARE

Wood Paneling

for rooms of enduring beauty

● No other decorating material shares the rare ability of wood paneling to grow more beautiful with the years. Modern, distinctive, and handsome from the day it is installed, wood paneling mellows and glows as passing years add to its beauty. It becomes a cherished possession, harboring rich memories and pleasant traditions.

Your Weyerhaeuser 4-Square Lumber Dealer has many different kinds of wood paneling materials from which to choose. You are sure to find one which best fills your needs and expresses your taste.

Index

ONE OF THE MOST IMPORTANT STEPS toward home ownership is selection of a plan... one that offers all the features of comfort, beauty and convenience that you and your family want. You will find an outstanding collection of home designs in this book. Each plan brings you the added values of professional designing and engineering. From basic construction to exterior beauty, these homes give you added values which mean initial economy, comfortable living, low maintenance, and lasting pride of ownership.

The blueprints include complete specifications and material lists which result in strong, durable construction. For building economy, precision manufactured, ready-to-use materials that speed up construction and reduce waste are specified.

Floor plans make efficient use of space and reflect modern trends in multi-use rooms, ample closets and storage, step-saving kitchens, and zoned living which

separates sleeping areas from family activities areas. These homes are planned with modern conveniences and built-in features to make the homemaker's job easier.

You also will find a variety of exterior treatments. Designs are available to fit any type and size of lot. Skillful use of exterior building materials create extra interest and individuality.

Complete working plans and specifications for each of the homes shown in this book are available through your Weyerhaeuser 4-Square Lumber Dealer. He can also show you additional home plans in a variety of modern architectural styles and a wide range of sizes.

For expert help in all phases of home building, from early planning stages to choice of materials, you will find it a happy experience to consult with your Weyerhaeuser 4-Square Lumber Dealer. He can help you combine beauty, efficient use of space, sound construction, and true building economy into the home you build.

r Working drawing available with either floor plan as shown or with floor plan reversed.

* In this home, the third bedroom is a multi-use room suitable for a bedroom, family room, play room, den or for other purposes.

+ Lot width is in accordance with typical FHA minimum requirements of 10 ft. total side yards for one-story homes and 12 ft. total for two-story homes.

Dining space arrangements are as follows:

DR—Separate dining room.

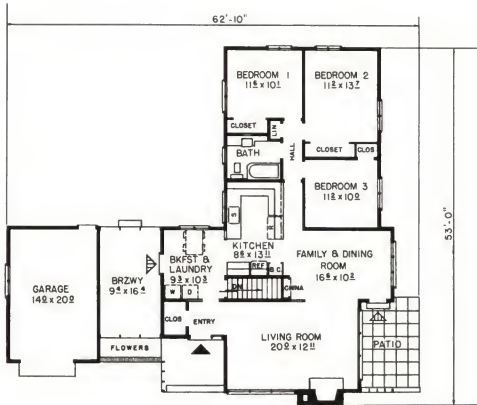

DAK—Dining area open to kitchen.

LR—In living room.

K—In kitchen.

LRA—In living room alcove.

**B Indicates design with basement; NB, design without basement; B&NB, plans with or without basement.

DESIGN NO. 7104

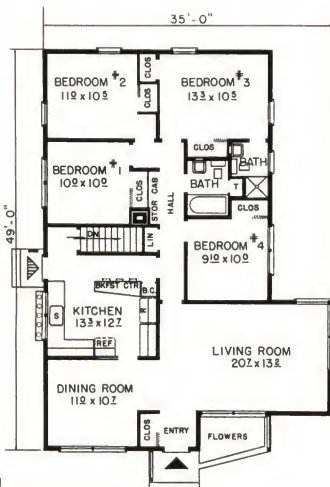

SEVEN ROOMS—With or Without Basement 1,359 Square Feet (House Only)

- A massive fireplace chimney and a friendly sheltered entrance add to the distinctive exterior of this design. Homemakers will like the center position of the efficiently arranged kitchen . . . breakfast room and laundry to one side, family and dining room on the other.

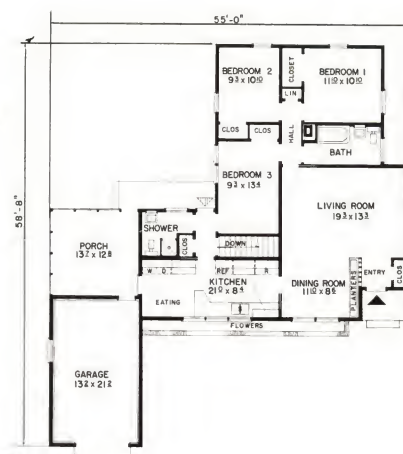

SEVEN ROOMS—With or Without Basement 1,422 Square Feet

- The beautiful simplicity which marks good design gives this four bedroom home its crisp, fresh look. Large families will appreciate the two baths, four bedrooms, and the separate dining room. Because of careful planning, this home does not require a wide lot.

DESIGN NO. 7101

DESIGN NO. 6132

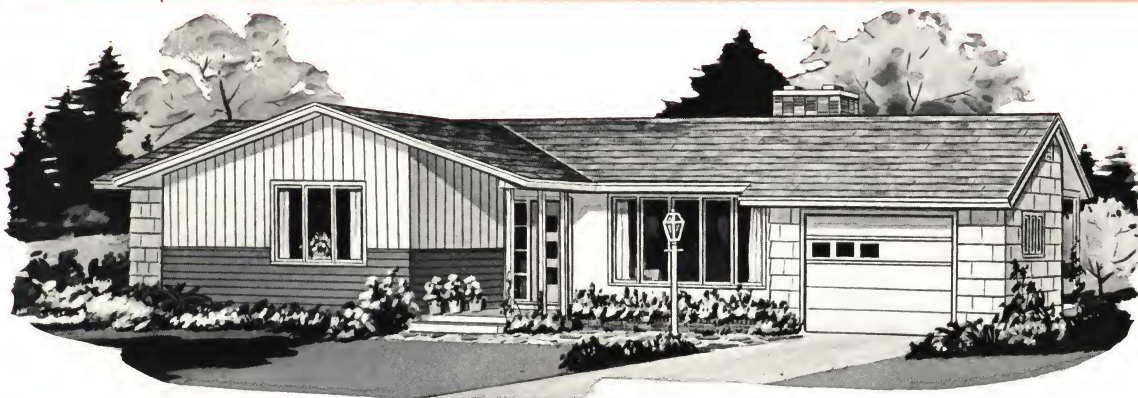

SIX ROOMS—With or Without Basement
1,308 Square Feet (House Only)

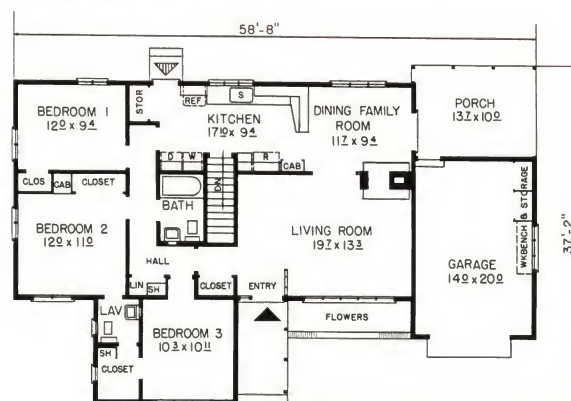

● With a fresh, appealing simplicity, this home design will blend in beautifully in any setting. Note the skillful use of both horizontal and vertical siding. Floor plan provides three bedrooms, two baths, formal dining space, and convenient kitchen with its own eating area.

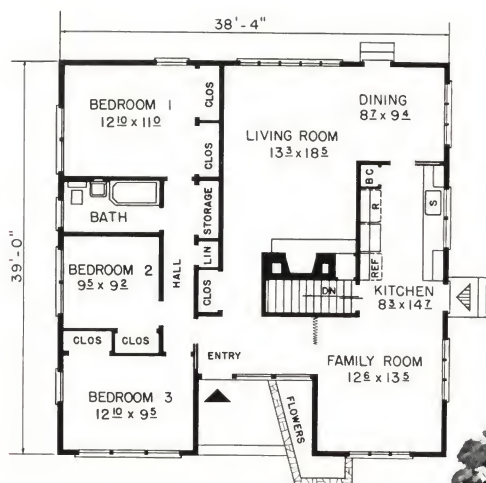

SIX ROOMS—With or Without Basement
1,257 Square Feet (House Only)

● Shakes, vertical V-grooved boards, and horizontal bevel siding have been combined to give this charming home exterior beauty. Inside, a double-hearth fireplace serves the living room and the dining-family room. Opening off this room is a secluded porch.

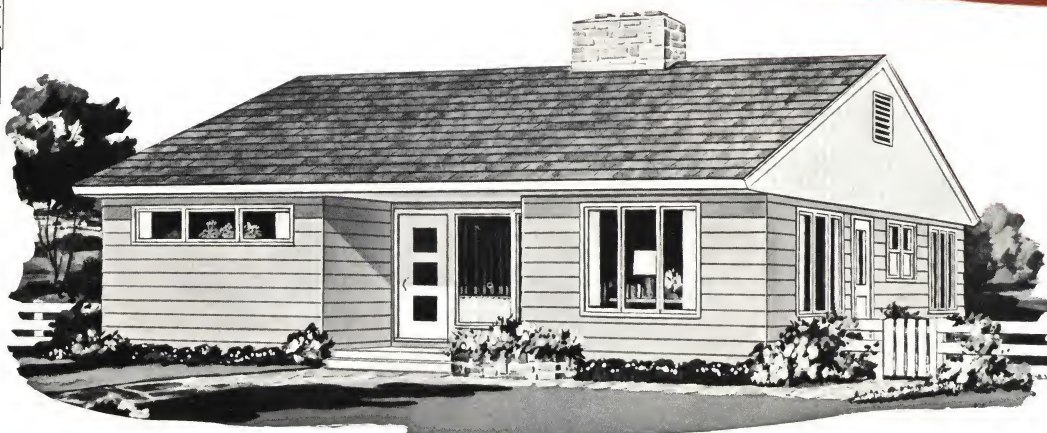

DESIGN NO. 6128

DESIGN NO. 6124

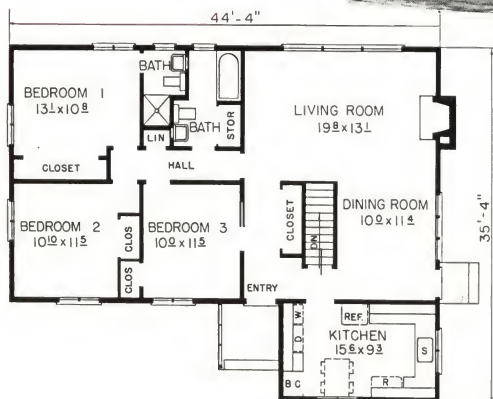

SIX ROOMS—With or Without Basement 1,494 Square Feet

● This economical-to-build home has many conveniences and comforts. The spacious entrance hall is brightened by a wall of glass and opens to the family room at right, the rear-facing living room, or the bedroom wing at the left. Living room features a massive stone fireplace and beautiful wood paneled walls.

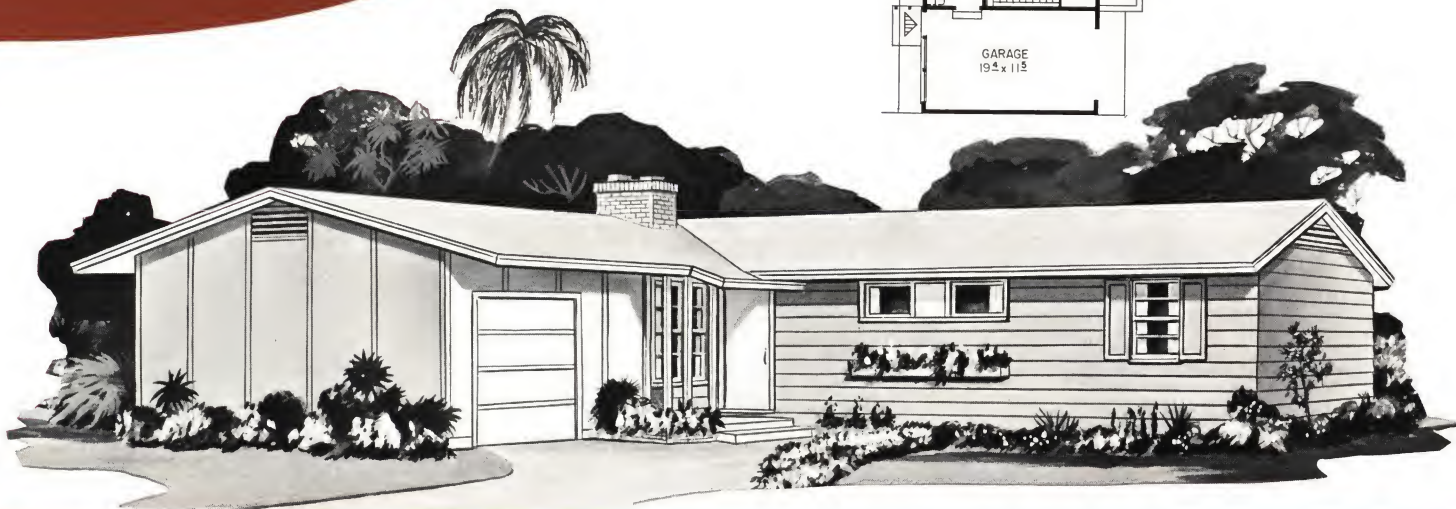

SIX ROOMS—With or Without Basement 1,297 Square Feet

● The beautiful simplicity of the exterior expresses the expert planning and true livability found within. The living and dining rooms form a bright and cheerful ell. A wall of windows faces the rear garden, with three windows and a door to the side. Large kitchen has ample room for breakfast area.

DESIGN NO. 6123

DESIGN NO. 6121

SIX ROOMS—With or Without Basement
1,306 Square Feet (House Only)

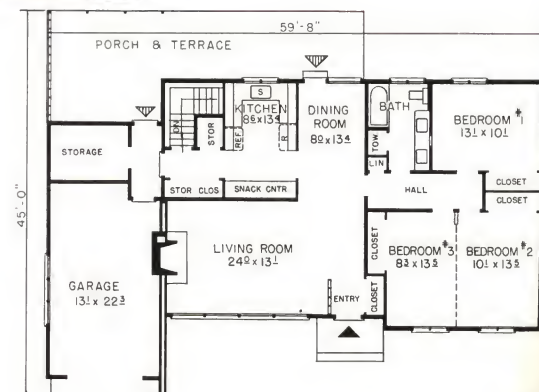

● Here is an exceptional home, both in livability and beauty. The kitchen is not set apart, but opens to the dining room which doubles as a family room. The double-hearth fireplace serves both living areas. Two baths and a huge master bedroom are luxury features. The attached garage is handy to front and rear entries.

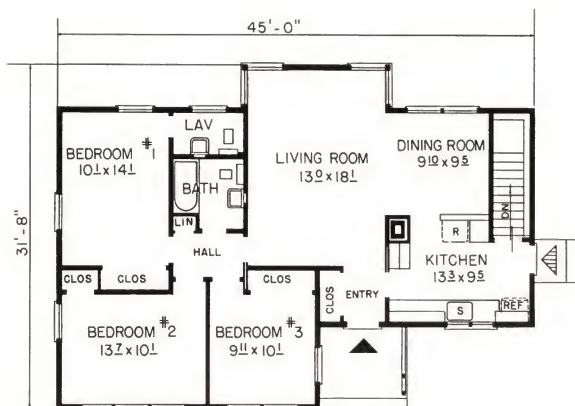

SIX ROOMS—With or Without Basement
1,274 Square Feet

● Designed for comfortable, convenient living, this home boasts beauty too, with its trim exterior lines accented by modern vertical siding. The convenient U-shaped kitchen features a handy snack counter. For added flexibility, the two front bedrooms are divided by a folding wall, making a children's play area.

DESIGN NO. 6119

DESIGN NO.

6117

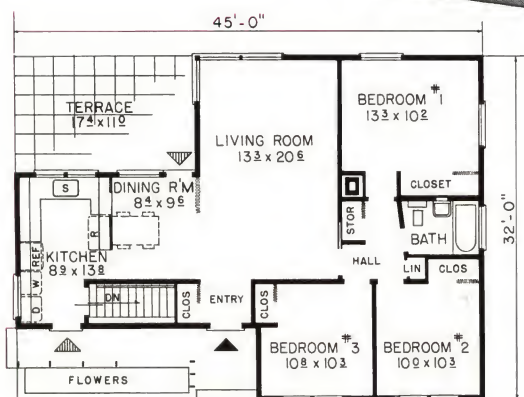

SIX ROOMS—With or Without Basement
1,146 Square Feet

● Exciting and contemporary in design, this home has a trim, graceful appearance. Open planning for kitchen, dining room, and living room create an appearance of spaciousness. Full bath serves two front bedrooms while master bedroom has private half-bath.

SIX ROOMS—With or Without Basement
1,093 Square Feet

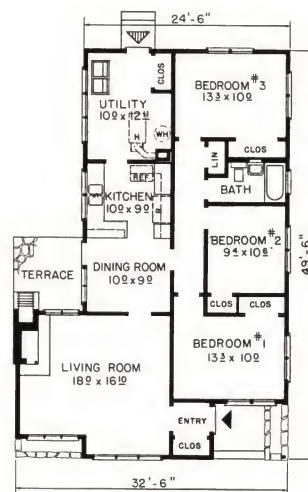

● From the sheltered entrances to the secluded terrace, this home is filled with plus-values. Living room, dining room, and kitchen all overlook the terrace and rear gardens through large view windows. Washer and dryer are conveniently placed in the kitchen.

DESIGN NO.

6116

DESIGN NO. 6112

SIX ROOMS—No Basement 1,273 Square Feet

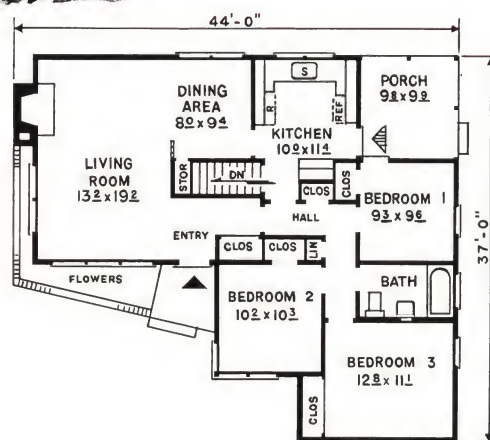

● Specially designed for a narrow lot, this rambler has a durable exterior of Western Red Cedar Shingles for roof and sidewalls. A large living room and separate dining room open onto the sheltered terrace with its built-in barbecue. Large utility room is a time-saver.

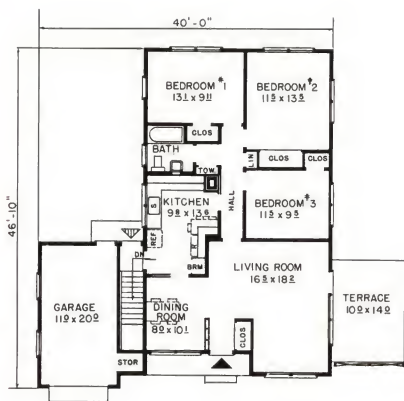

SIX ROOMS—With or Without Basement 1,100 Square Feet

● A wide roof overhang forms a protective canopy for the inviting entrance to this gracious rambler. Solid comfort and friendly shelter are to be found within. The spacious living-dining area gains added beauty from the fireplace and wise placement of windows.

DESIGN NO. 6108

DESIGN NO. 6107

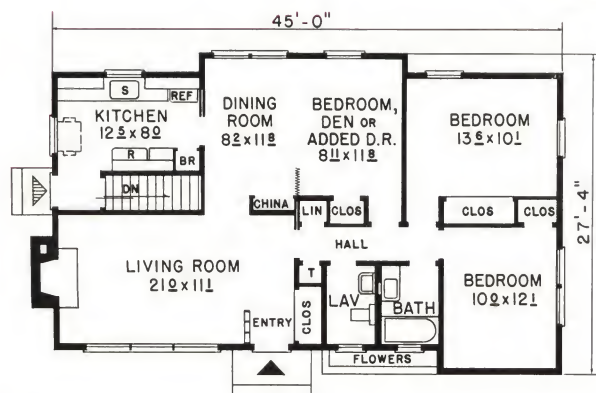

SIX ROOMS—With or Without Basement
1,168 Square Feet

● From the inviting exterior to the comfortable interior, this home provides outstanding features which result from professional designing . . . open planning which gives the living-dining area luxurious spaciousness; the sunny terrace screened from the street by a woven fence; the efficient kitchen with breakfast counter.

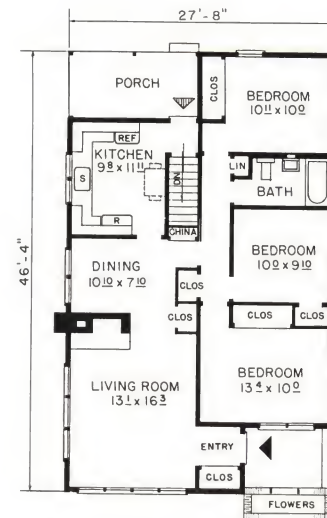

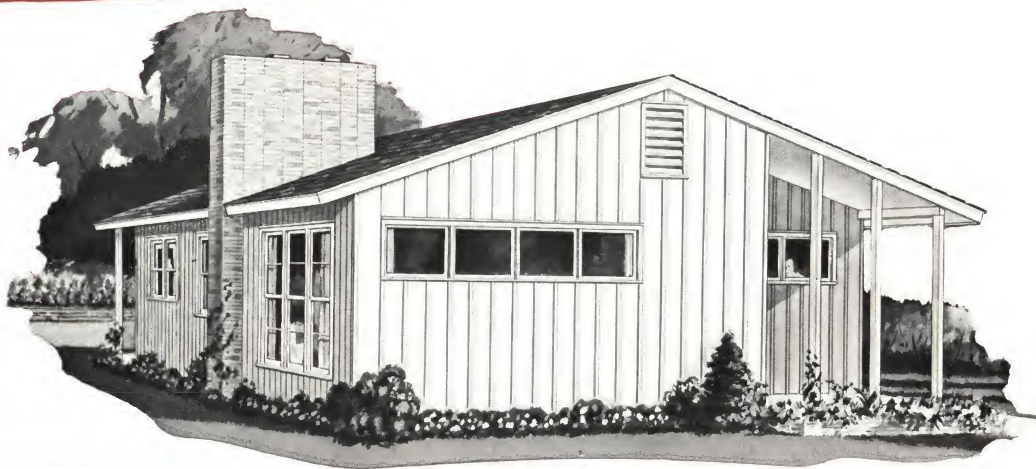

SIX ROOMS—With or Without Basement
1,120 Square Feet

● Inside and out, this home suggests comfort, stability, and warmth. Extra-value features include a combination dining and multi-purpose room, which can easily be partitioned to serve as two rooms; a spacious living room with fireplace; a divided bath, and excellent wardrobe and storage space.

DESIGN NO. 6105

DESIGN NO. 6104

SIX ROOMS—With Basement 1,124 Square Feet

● This charming rambler is designed for the narrow lot. Less than 28 feet wide, it includes three bedrooms, a separate dining room, living room with fireplace, and even a secluded, spacious porch. The U-shaped kitchen has space for a breakfast table, and is handy to the porch for summer meal serving.

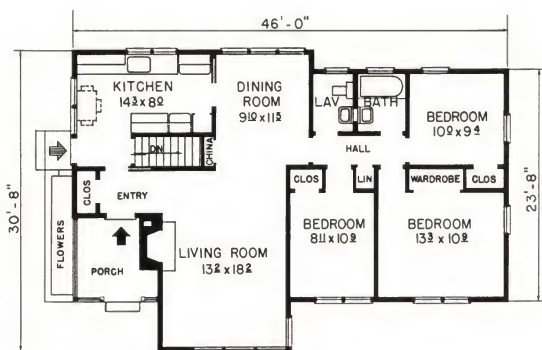

SIX ROOMS—With Basement 1,043 Square Feet

● This value-packed home offers many modern features that assure comfortable family living. Opposite the protected front entry is a convenient coat closet. Wise window placement gives good light and ventilation. Families will welcome the handy kitchen snack bar. A porch opens off the living and dining room areas.

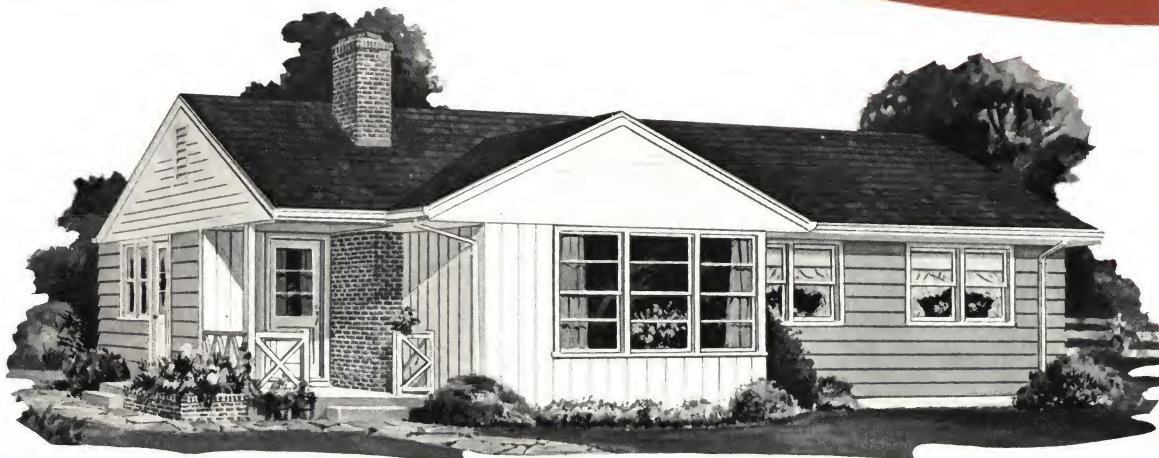

DESIGN NO. 6103

DESIGN NO. 6102

SIX ROOMS—With Basement 1,226 Square Feet

● The many "luxury home" features in this modern six-room rambler make it an architectural achievement in styling, comfort, and economy. A recessed porch protects the front entrance. Note the built-in china cabinet in the dining area, corridor type kitchen, handy divided bath, and convenient entry closet.

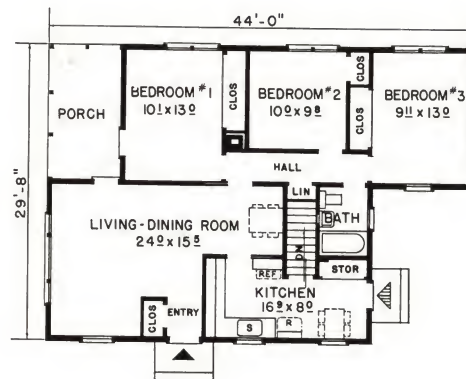

FIVE ROOMS—With or Without Basement 1,030 Square Feet

● Open planning in this design blends the living room, dining area, and kitchen into one unit for family convenience and comfort. Rooms appear larger, but keep their identity. An unusual diagonal wall merges the compact U-shaped kitchen with the dining area. Modern awning-type windows are specified throughout.

DESIGN NO. 5149

DESIGN NO. 5148

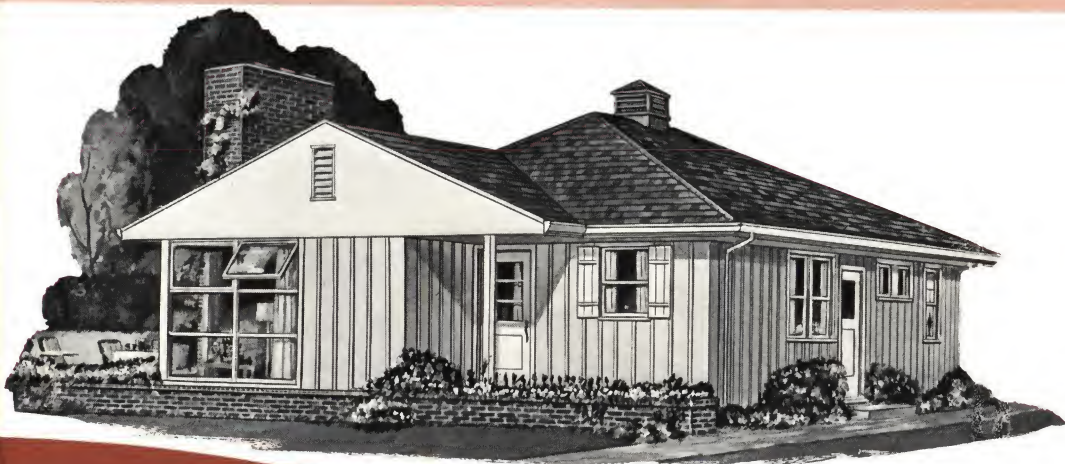

FIVE ROOMS—With or Without Basement 1,064 Square Feet

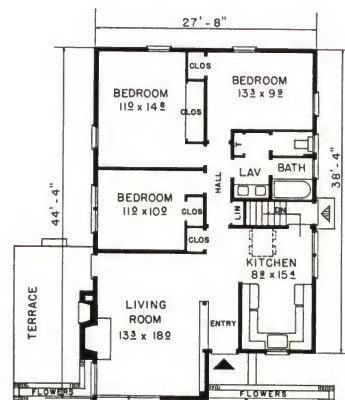

● Practical planning keeps the price of this home reasonable and still provides beauty of styling and features which contribute to comfortable living. The large kitchen has breakfast space, while additional dining space is provided in the long, well-lighted living room. Breeze-cooled porch opens off the living room.

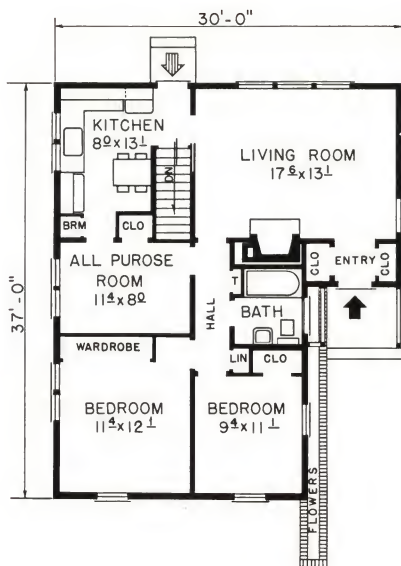

FIVE ROOMS—With Basement 1,147 Square Feet

● Many convenience features are incorporated in this attractive home suitable for a narrow lot: a covered entry, a step-saving U-shaped kitchen, a generous master bedroom, multi-purpose bath, and a double-duty chimney that provides both a friendly living room fireplace and a terrace barbecue pit.

DESIGN NO. 5140

DESIGN NO. 5131

FIVE ROOMS—With Basement 973 Square Feet

● Two handy closets flank the entry hall to this pleasant home. The bright living room features a cheery fireplace and a garden view. Next to the efficient kitchen, with its roomy dinette space, is the all-purpose room, which can serve as a den, third bedroom, or dining room.

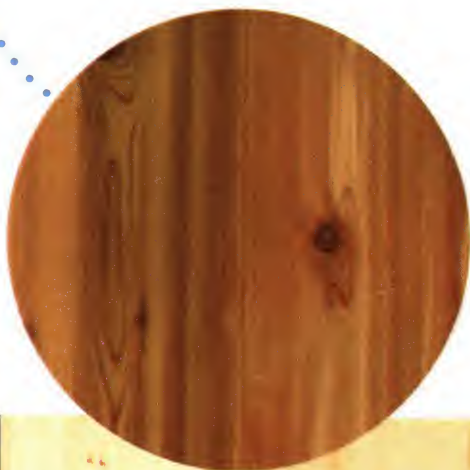

FIVE ROOMS—With Basement 1,037 Square Feet

● The inviting entry, with convenient closet, leads to the spacious living-dining room which features a beautiful picture window. Hall space is held to a minimum in this economical-to-build home, yet there is easy access to all rooms. Master bedroom provides for twin beds.

DESIGN NO. 5125

Knotty Inland Red Cedar plywood is shown here in its natural color. Note the rich grain and interesting color contrasts. Panels may be finished clear, stained or in a variety of color effects.

Knotty Idaho White Pine plywood is pictured before any special finish or stain is added. Scattering of knots gives this wood a special charm, making it a traditional American favorite.

Gruve-Ply is a new paneling material available in Knotty Pine and Knotty Cedar. Ingenious vertical grooving provides a blended joint treatment of adjoining panels, and creates a pattern of individual boards. The ease and economy of plywood installation is retained.

Here is
Lasting Warmth
and Beauty
in a selection of

*Plywood
Panelings*

Gruve-Ply's veneer of genuine Idaho White Pine is carefully sliced like the most expensive imported woods. In small or large rooms, it complements and unifies any decorative scheme.

Beautiful plywood panelings retain all the distinctive beauty of wood paneling, and give you the advantages of speed and economy in installation. The large panels go into place easily and quickly, with a minimum of sawing and fitting.

Decorative plywood paneling can be finished to meet any personal preference. Many prefer to use clear finishes which retain exactly the distinctive natural color of the wood used. Others prefer light stains, often called "natural finishes", which tone the wood yet preserve the beautiful grain. And, of course, wood paneling can be painted to match any decor.

However you finish it, wood paneling always is in good taste in any room of your home. Ask your Weyerhaeuser 4-Square Lumber Dealer to show you his wide selection of beautiful and enduring plywood panelings. See for yourself how much they can add to your home and your joy of living.

BE SURE TO ASK FOR

Weyerhaeuser 4-SQUARE® Plywood Paneling

New Loc-Wall is available in two distinctive patterns—one, a combination of vertical and horizontal Vee grooving. The other pattern is a vertical double Vee grooved. Produced in Clear Pine, Cedar and Larch, and Knotty Pine and Cedar.

NO. 2501

One-car Garage. Sizes: 12' x 20', 14' x 20', 12' x 22', or 14' x 22'. Simple gable roof . . . hinged windows in side walls. With two feet added to basic 12' width or basic 20' length (or both), handy storage space is provided.

NEW *Garage Designs* FOR THE NEW CAR TREND

● Longer and Wider . . . that's the trend in new cars. You'll be amazed to see what adding only a few feet to the basic garage dimensions will do in accommodating the new cars and in providing efficient "Plus-Storage" space . . . for storage of storms or screens, lawn tools and other equipment, *and* for that needed workbench.

"Garage-Plus-Storage" . . . that's the modern, new trend in garage design. Additional space for your longer car and for storage, is easily and economically provided when you build to these new plans. This is the practical solution to the storage problems of the modern home.

NO. 2511
